GitHub

SOFT SKILLS

- Problem Solving
- Leadership
- Work Ethic
- Teamwork & Collaboration

EDUCATIONAL HISTORY

Higher National Diploma in IT

SLIATE - Tangalle | 2023 – 2025

Undergraduate

GCE A/L

Rahula College - Matara | 2020

CCS (Bio Science Stream)

PROJECTS

School Management System

- *PHP • MySQL • HTML/CSS • JavaScript*

https://github.com/KPulathisi/Final-Project2

- Individually developed a role-based School Management System using PHP, MySQL, HTML, and CSS, supporting Admin, Teacher, Student, and Staff roles with secure session-based login and dynamic access control.
- Implemented key academic and administrative modules including user management, class timetables, marks and attendance tracking, and term-wise reporting—covering the full SDLC from design to deployment.

NIS

- *Java • MySQL*

https://github.com/TANCodeZen/Group-Project

- Contributed to a digital immunization system using Java Swing and MySQL, designing newborn registration modules and ensuring accurate, validated vaccine data entry.

School Management System

- *C# • MySQL*

https://github.com/uniqudev/Group_03

- Contributed to a Windows-based School Management System, focusing on MySQL backend development with optimized queries, stored procedures, and relational database design.
- Supported data-driven feature development in C#, implementing CRUD operations, role-based access, and database-integrated UI components.
